Nasir Uddin Khan *AI & Computer Vision Researcher | Fairness in AI | Machine Learning*

nasiruddin.yzu2018@gmail.com | +86 187-0527-8424 | nasir98 | Nasir

PROFILE

AI and Computer Vision researcher with a Master's degree in Information and Communication Engineering and a Bachelor's degree in Software Engineering. Research interests center on fairness and demographic bias in artificial intelligence, facial recognition, computer vision, deep learning, and medical image analysis.
Research experience includes evaluating demographic fairness in facial recognition systems, developing lightweight deep learning approaches for face recognition, and investigating fairness and mitigation methods in medical image classification. Hands-on experience with Python, PyTorch, TensorFlow, Keras, OpenCV, Scikit-learn, and data-analysis tools. Currently seeking a fully funded PhD position in Europe in Computer Vision, Biometrics, Machine Learning, Trustworthy AI, Fairness in AI, or Medical AI.

PUBLICATIONS

LightFace-SAM: An Ultra-Lightweight Face Recognition Model with Low-Rank Embeddings and Sharpness-Aware Optimization, *Signal, Image and Video Processing, Springer Nature*
Manuscript under review

Lesion-Aware Intersectional Fairness Evaluation and Mitigation in Melanoma Classification Using ISIC 2019,
Artificial Intelligence in Medicine, Elsevier
Submitted: 3 October 2026

Comparative Analysis of Deep Learning Models for Underwater Fouling Classification,
IEEE journal of Oceanic Engineering
Co-Authored

Deep Learning-Based Instance Segmentation Using YOLOv8 for Automated Underwater Fouling Detection,
IEEE journal of Oceanic Engineering
Co-Authored

WORK EXPERIENCE

Mujib Enterprise, *Frontend Web Developer* 08/2022 – 07/2024
Dhaka, Bangladesh

- Developed responsive and user-friendly web interfaces using modern frontend technologies.
- Designed and implemented website layouts, navigation menus, forms, and interactive components.
- Worked with HTML, CSS, JavaScript, and frontend frameworks to build functional web pages.
- Improved website performance, mobile responsiveness, and user experience.
- Collaborated with backend developers, designers, and project teams to complete web development tasks.

EDUCATION

Master's, *Changchun University of Science and Technology* 09/2024 – 07/2026
Changchun, China

Bachelor of Software Engineering, *Yangzhou University* 09/2018 – 07/2022
Yangzhou, China

SKILLS

Programming: Python, JavaScript, C/C++ | **AI & Machine Learning:** Deep Learning, Computer Vision, Facial Recognition, TensorFlow, PyTorch, OpenCV | **Web Development:** JavaScript (ES6+), React.js, Vue.js. | **Tools & Platforms:** Model Evaluation, Dataset Preparation, Statistical Analysis, Data Visualization, Fairness & Bias Evaluation | **Development Tools:** Git, GitHub, VS Code | **Other:** API Integration, Cross-Browser Development, Debugging, Performance Optimization

LANGUAGE

English | Chinese | Bengali | Hindi/Urdu

PROJECTS

TruthGuard AI, *Multimodal AI Forensics Platform*
React.js, TypeScript, Node.js, Express.js, Python, FastAPI
- Developed a full-stack AI forensics platform for image, audio, and video authenticity analysis.
- Integrated AI-powered voice deepfake detection and video forensic analysis services.
- Built secure dashboards, reporting modules, and case review workflows with modern responsive UI.

AWARDS

Jilin Provincial Government Scholarship, *Jilin Government* 07/27/2024
Awarded a fully funded scholarship based on academic excellence for the Master of Science program in Information and Communication Engineering at Changchun University of Science and Technology.

Yangzhou University Scholarship, *Yangzhou University* 08/03/2018
Awarded a fully funded scholarship based on academic merit for outstanding performance during the Bachelor of Science program in Software Engineering at Yangzhou University

Air Force Excellence Scholarship, *BAF Shaheen College Kurmitola* 07/10/2015
Received a 50% scholarship in higher secondary school in recognition of outstanding academic performance.

Navy Presidential Scholarship, *Cambrian School and College* 12/01/2014
Received a 50% scholarship in secondary school in recognition of outstanding academic performance.

ORGANISATIONS

AI Researchers Network, *Member* 09/2024 – Present
Participate in an academic research community focused on artificial intelligence, research collaboration, knowledge sharing, and professional development. Changchun, China.

Yangzhou English Club, *Mentor* 09/2018 – 07/2022
Mentored members in English communication and supported club activities, discussions, and learning sessions. Yangzhou, China

BD Clean, *Member* 03/2023 – Present
As a member of BD Clean, I support volunteer activities focused on cleanliness, public awareness, and building a cleaner and healthier Bangladesh. Dhaka, Bangladesh
